

Bowel Preparation

- The day before the surgery you need to make your last food meal breakfast you may have a morning snack, then nothing to eat after that.
- You may have a clear liquid lunch and drink water the rest of the day.
- You need to drink one (1) gallon of Golytely, one (1) eight (8) ounce glass every ten (10) minutes until it is gone. Start drinking this at 12:00 pm, noon.
- The neomycin 1g and EES take them at 1:00pm, 2:00 pm and 11:00 pm.

Do Not Eat or Drink Anything After Midnight!
